Smart Class | Maths Lab | Science Lab
E-learning Software | Technical Lab
School Management System

ABOUT US

SINELAB technologies, a Implementation agencies of Smart School and Hi-tech class room solution, has been established in 2006 at National Institute of Technology, Calicut, Kerala as an initiative under Technology Business Incubator(TBI) scheme. In the year 2013,Sinelab Technologies Pvt Ltd has been incorporated and launched SINELAB brand products from our new manufacturing unit at Palakkad, Kerala.

We have an expert team and wide infrastructure to take up the responsibilities to build a Smart School and Hi-tech classroom .To prepare students for rapidly changing world, we equip them with educational products that are smart, safe, engaging, and provides hands-on-practical knowledge

To inculcate the Joy of Knowing amongst students and stimulating their thought-process we adopt a range of innovative and forward-thinking measures.

VISION

To be the most preferred and trusted global player

MISSION

To provide innovative educational concepts and products that help children, young adults and individuals perform to their potential. We are driven by passion to innovate and passion to excel.

SMART CLASS

Our Smart Classroom solution is based on interactive, rich multimedia content-enabled education system which illuminates abstract & difficult concepts with crystal clarity. It bridges the learning gaps between teacher & students and helps them realize their true potential

INTERACTIVE BOARD

The most popular multi touch interactive technology for your classroom environment

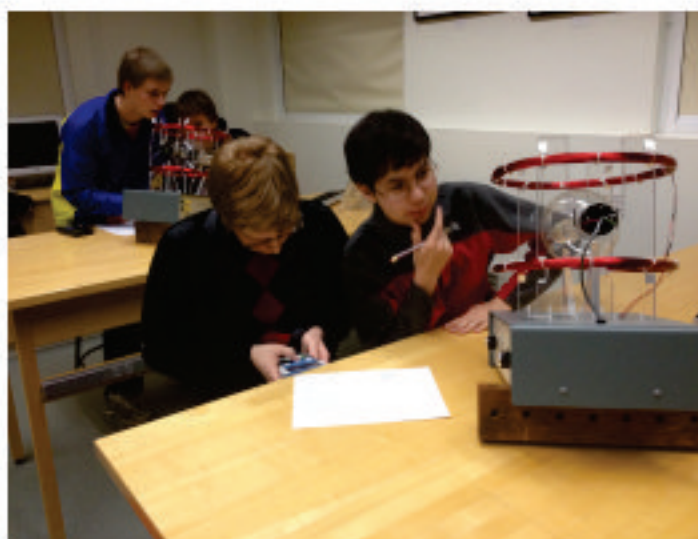

ADVANCED FEATURES

- > Easy maintenance
- > Anti scratch surface
- > Low noise / Interference
- > High accuracy and smooth writing
- > Multi Touch
- > Plug and play

SCIENCE LAB

There is no substitute for hands - on experimentation, especially in science at SINERLAB, we have designed an array of labs encompassing a multitude of topics in physics biology chemistry

PHYSICS LAB

SPECIAL FEATURES AND HIGHLIGHTS

- > Improves active learning and critical thinking
- > Improves skill in measuring recording organizing and analyzing data
- > Provide place for the systematic development of students ideas

CHEMISTRY LAB

SPECIAL FEATURES AND HIGHLIGHTS

- > Attractive easy – to-handle safe & eco friendly
- > Kindles scientific thinking
- > Testing ground for the predictive power of students reasoning.

BIOLOGY LAB

SPECIAL FEATURES AND HIGHLIGHTS

- > Increase concentration visualization memorization of processing skill
- > Study of life its evolution, of organisms & their structures, functions, processes & interactions with each other & with their environments in a smart way
- > Experience, and experiment with scientific phenomena in their quest for knowledge of living things.

MATHS LAB

Maths is said to be “the mother of all science” maths lab that aims to turn maths fear into maths joy by bringing out the practical aspects in learning. Easy to understand, remember and apply, the math lab that helps students develop speed and accuracy by sharpening their mind and improving mental ability and intelligence.

SPECIAL FEATURES AND HIGHLIGHTS

- > Reinforce maths skills at a conceptual level
- > Develop speed and accuracy
- > Practical way of using lab equipments
- > Unique, user friendly, portable, attractively & compactly packed

Time Mat

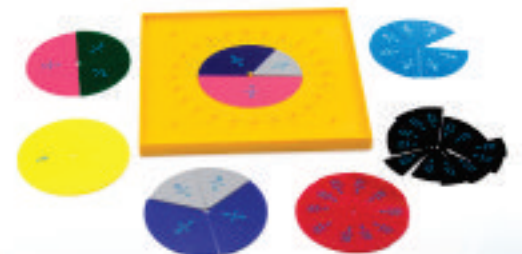

Square Tiles

Inter Connecting Cubes

Solid Shapes

Fraction Discs

INNOVATION LAB

- Better practical understanding and improve technical skills of students due to dynamic and simultaneous class and lab session
- We provide easy availability of all the materials for performing experiments at one place
- With this technology lab students experience observe and practice concepts of the technical skill on their own.
- The labs contain tools that are specially designed innovative, safe, strong, eco-friendly and premium quality.

ERP SOFTWARE (Enterprise Resource Planning)

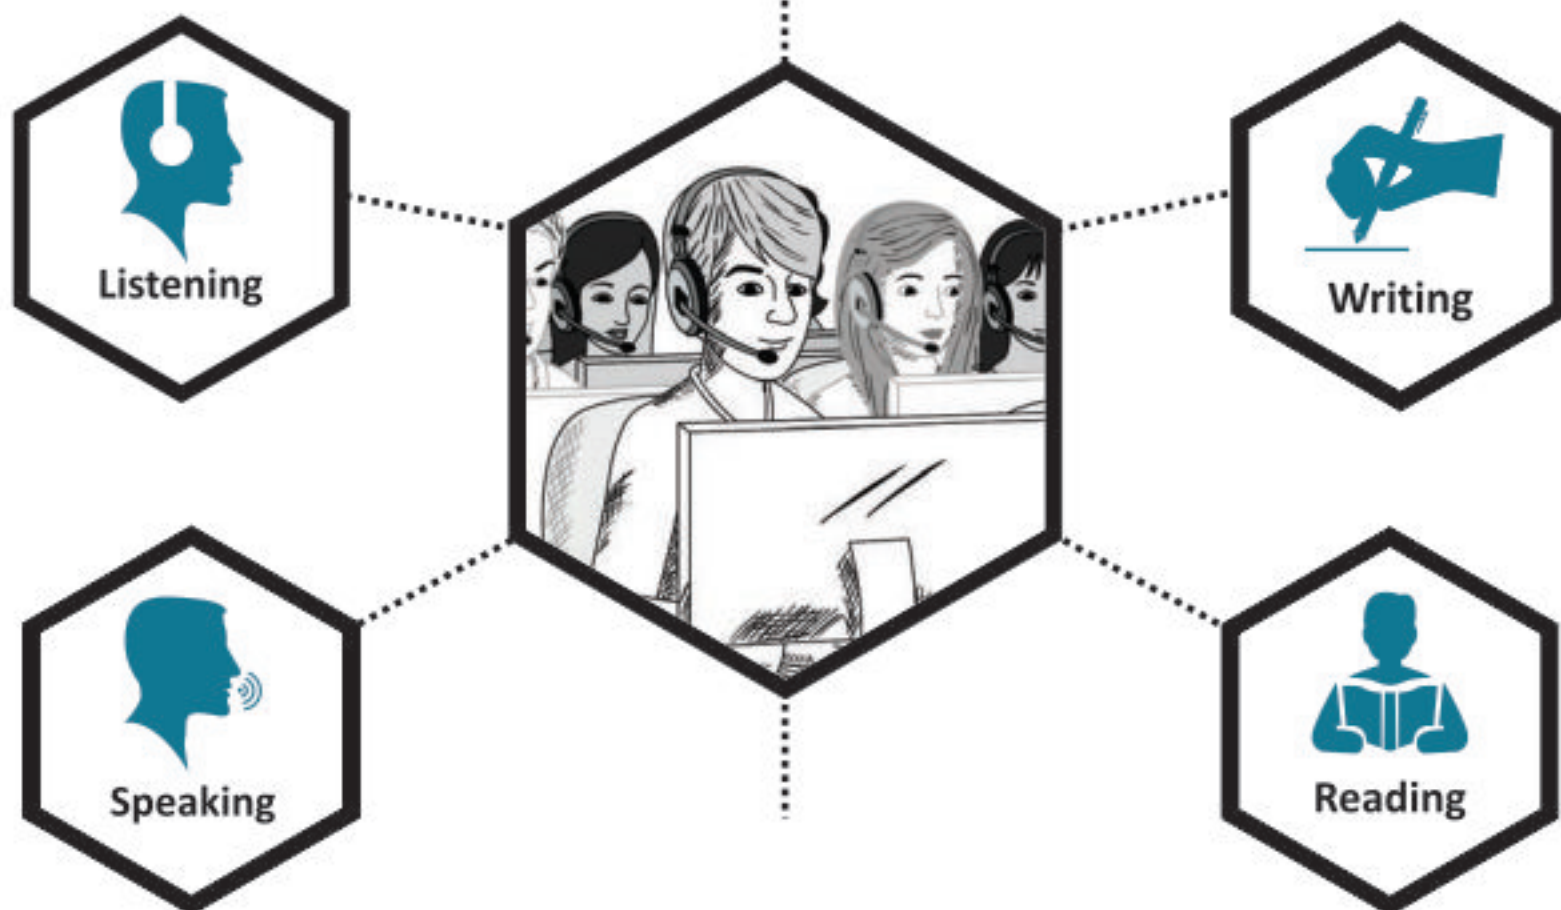

- Propel the children to the top of the world with software build using ERP Software
- Provide centralized system, Which keeps maintains and updates all the activities related to your reputed institution.
- School ERP software that will ease the process of each and every aspect of a school, be it Admission, Transport, Examination, Library, Time Table, HR & Pay roll etc.

English

Language lab

Graded as per Proficiency Levels and Catering to all Four Language Skills

- > An approach to teaching English as a skill.
- > Progressive learning from Elementary to Advanced levels .
- > A fun-filled learning environment to generate love for the English language.
- > High quality digital content that supplements the academic syllabus of school.
